

ENVIRONMENTAL POLICY

GENERAL STATEMENT OF INTENT

AFS Earthmoving & Aggregates LLP is committed to being an environmentally-conscious Company. We strive to ensure that our business has the least harmful effect on the environment as possible. To this end, we ensure an on-going development programme and implementation of a management system will form a core part of our Company Policy.

In recognising the importance of environmental management, AFS Earthmoving & Aggregates LLP has appointed a Management Representative who will take responsibility for all environmental management issues; ultimate accountability remains within the remit of the Company Partners.

We will seek to establish good environmental management policies by the following:

- Make every effort to reduce emissions, minimise wastage and prevent spillages;
- Provide the necessary resources to invest in environmentally-friendly technology;
- Ensure that environmental issues are considered when defining Company Policies;
- Develop sound relationships with our suppliers and customers and ensure that we all recognise our individual environmental responsibilities;
- Promote waste minimisation by recycling or re-using products when possible;
- Comply with all relevant regulations associated with our industry;
- Ensure that the Environmental Policy is understood and implemented by all staff;
- Ensure that all employees are aware of their individual responsibilities to protect the environment.

This Policy will be reviewed and updated when necessary and will be communicated to any interested parties at their request.
